FOREWORD

This bibliography is arranged in two parts. Part one cites periodical articles which have been written on government libraries, here and abroad. This is followed by a bio-bibliography which lists bibliographies and indexes prepared from 1945 to the present by various staff members. Entries which have been assigned accession numbers by the Defense Technical Information Center, Alexandria, VA are indicated with a six-digit number. Authorized DOD account holders may order direct. Other patrons may order commercially from the National Technical Information Service, Springfield, VA.

Entries in this special bibliography series have been compiled to call attention to the depth of the USAFAS collection. This service emphasizes periodicals coverage; not just to books amply cited in any card catalog or computer print-out.

Inclusion of an item, or omission, does not imply USAFAS indorsement or sanction of the compiler's point-of-view. Comments or criticism concerning entries in this series are welcomed.
